

rasmussen81

This card box is designed for storing your Summary Cards that come with the Air Pack for Memoir '44. This box is big enough for all of the current Summary cards and has some extra room for future cards that come out.

I suggest that you use a craft knife to cut the form out. The white tabs need to all be folded over and taped or glued in place to create the box. Heavy paper or tagboard works best.

Note: The white tabs above the "Summary Cards" sides are tabs for the lid. Do not tape or glue them to anything or your box won't open!
